

Graduate School Information Session

Friday, October 30th

10:00 am

438 West Hall

Please come to the Department of Statistics this Friday to learn about graduate programs in statistics and related fields (including biostatistics, operations research, quantitative methodology, and survey research).

Topics will include:

- How to identify programs, and understand the differences among programs
- Application timelines
- Preparatory coursework
- Financial support
- Typical coursework
- Tailoring graduate school to your career aims

Bagels and coffee will be provided!
